DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 40-43 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 40-43 fail to provide proper antecedent basis. To provide proper antecedent basis for the limitation "the food product-receiving chamber" in the first paragraph of the claims which starts with "food product transport mechanism", it is suggested to move this paragraph after the paragraph starting with "a food product-receiving chamber", but before the wherein clause for the food product transport mechanism. Appropriate correction is required.

Reissue Applications

Claims 44-46 are rejected under 35 U.S.C. 251 as being broadened in a reissue application filed outside the two year statutory period. The claims do not positively call for a perforate food product-receiving chamber which includes "a heat transfer medium". However, this limitation is required in the issued patent. Therefore, claims 44-46 are broadened claims, since a claim is considered to be broadened if it is broader in any one respect even though it may be narrower in other respects. A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process which would not have

infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.
